Forecast for Monday 29 Aug 2022

Weather: A largely cloudy morning with limited brighter spells, but cloud lifting above the tops. Dry for most, but an isolated light shower is possible mainly in the east. Cloud breaking up a little through the late afternoon, with some sunny spells possibly developing.

Chance of cloud-free hill tops above 600m: 70% then becoming 100% by lunchtime.

Low cloud and visibility: Visibility mostly good with distant hills visible. However, very poor in low cloud covering the hills, bases 500-600m, with nearby landmarks obscured. Moderate in any light rain or showers.

Forecast for Tuesday 30 Aug 2022

Weather: Another largely dry day with plenty of sunny spells and cloud mostly above the hilltops. Any patchy low cloud near the tops will be restricted to the early hours. During the evening, some lower cloud and light showers may move westwards to affect mainly eastern parts of the Park.

Maximum wind: Northeasterly 15-20 mph, gusting 25-30 mph.

Chance of cloud-free hill tops above 600m: 80% at first becoming 100% around dawn, then becoming 40% during the evening.

Low cloud and visibility: Visibility mostly good with distant hills visible. However, very poor in low cloud covering the hills first thing and during the evening, bases 500-600m, with nearby landmarks obscured. Moderate in any light showers.

Temperature: **Valleys:** Plus 10C becoming plus 18C
At 600m: Plus 10C becoming plus 12C
Freezing level: Above the hills
